

FONTMELL MAGNA PARISH COUNCIL

&

VILLAGE HALL

COMMUNITY

EMERGENCY

RESPONSE PLAN

SECTION 1 – INTRODUCTION

Why is resilience important?

Communities that spend time planning and preparing are best placed to respond to and recover more quickly from local or wider emergencies.

They can use local knowledge and expertise to identify and prioritise risks and put in place plans to mobilise local skills and resources in response to an emergency

Definition of an emergency

An emergency / major incident is any event or circumstance (happening with or without warning) that causes or threatens death or injury, disruption to the community, or damage to property or to the environment on such a scale that the effect cannot be dealt with by the emergency services, local authorities and other organisations as part of their normal day-to-day activities.

What are the benefits of community resilience?

1. It identifies who in your community might need your help
2. It makes you aware in advance of local risks and mitigation measures which could reduce the likelihood of an emergency occurring
3. Preparing yourself, your family and your community makes it easier to recover from the impacts of an emergency

4. Utilising local knowledge, skills and resources can significantly reduce the impact of an emergency: Local emergency responders will always have to prioritise those in greatest need, especially where life is in danger and during those first few critical hours.

Why develop a Community Emergency Plan?

To increase resilience within the local community (before, during and after emergencies) and to link into the local councils' (statutory authorities) and emergency services' emergency response structures.

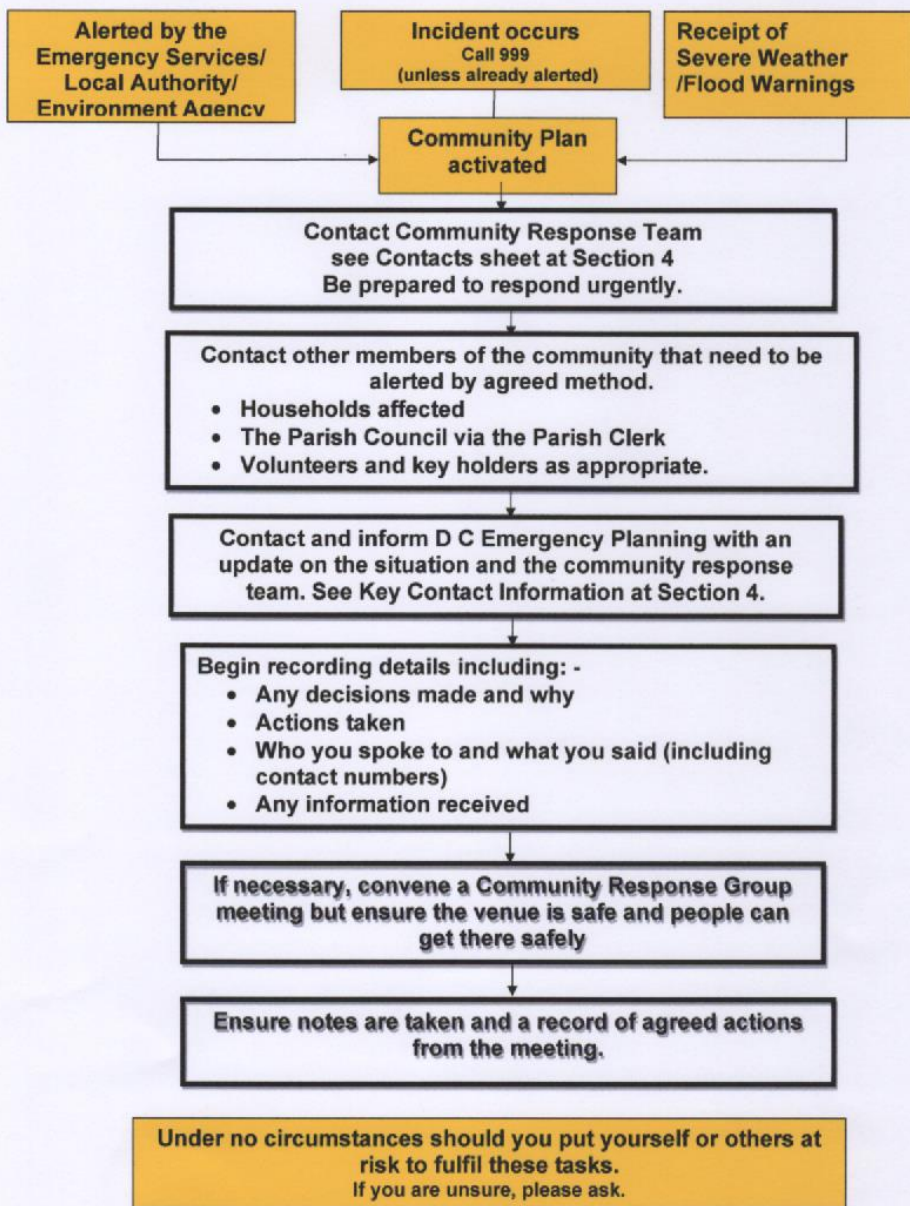

This Plan documents how **FONTMELL MAGNA** would respond in an emergency situation e.g. while awaiting the assistance of statutory authorities/emergency services, or in support of them.

It is not the role of the community to take on the responsibilities of these agencies e.g. to save life; to take any risks to themselves; or to cope for hours without agencies' help and support.

Plan objectives:

- Identify the risks to the community and relevant response actions
- Identify vulnerable people / groups in the community
- Identify resources available in the community to assist during an emergency
- Provide contact details for the Community Response Group (CRG); key community resources; the Emergency Services; and local councils.
