Tree & Hedgerow Applications should be returned to the Environment Team

Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

## Town and Country Planning Act 1990

You can complete and submit this form electronically via the Planning Portal by visiting www.planningportal.gov.uk/apply

## Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application / notice cannot proceed.

T1: Atlantic cedar. Reduce overall canopy by up to two meters, pruning branches back to appropriate branch unions. Thin Canopy by 10%

I have enclosed photos of the intended reduction.

This tree is a young specimen and is likely to grow at least 5 x its current size. It is growing no more that three meters from the neighbouring property at the rear of the garden and importantly their conservatory. There is a real issue of diminishing light to this property. Something the owners of the tree want to address.

The owners of the tree planted it some 40 years ago and were not at the time aware of how large it would potentially grow. They are wanting to get it reduced and maintain its current size to allow their neighbours light.
