

1929. Morris is enjoying his perfectly normal life of planting, harvesting, basket making and drinking tea... until one day when he pulls up a particularly large piece of Willow with a girl clinging to the end of it! She eats too much, breaks everything and is a complete nuisance. But as time moves on, they teach each other the ways of the Willow and become fast friends. That is until the threat of WW2 looms and an even bigger enemy arrives - plastic!
